

MEKALA UDAY KIRAN

+91 9652882925 | udaykiran2005m@gmail.com | [LinkedIn](#) | [GitHub](#)

OBJECTIVE

Computer Science undergraduate with a strong foundation in Java, Data Structures & Algorithms, Object-Oriented Programming, and DBMS. Skilled in Python, JavaScript, React.js, and Flask, with hands-on experience building full-stack and AI-powered applications. Strong analytical and problem-solving ability with a quick learning aptitude. Seeking to join Infosys as a Specialist Programmer / Digital Specialist Engineer Trainee to apply core programming and engineering fundamentals to real-world software solutions.

EDUCATION

Vardhaman College of Engineering

Bachelor of Technology in Information Technology — Aug. 2023 – May 2027

Hyderabad, India

- CGPA: 8.35/10.0

Narayana Junior College

Mathematics, Physics, Chemistry — 2022 – 2023

Hyderabad, India

- Percentage: 97.7%

St Paul's High School

Secondary Education — 2020 – 2021

Jangaon, Telangana

- Percentage: 100%

PROJECTS / RESEARCH

AI Resume Analyzer | React.js, Flask, Python, PDFPlumber, REST API

Mar 2026

- Developed a full-stack web application using React.js and Flask that analyzes PDF resumes and extracts sections such as Skills, Education, Projects, Experience, and Certifications using rule-based parsing and regular expressions.
- Built an ATS scoring engine that evaluates resumes based on technical skills, keyword matching, project quality, education, and resume structure to generate an overall resume score.
- Generated personalized resume insights including professional summary, strengths, weaknesses, missing technical skills, improvement suggestions, and interview questions for placement preparation.
- Designed a responsive React dashboard with PDF upload, real-time analysis, and REST API integration, ensuring seamless communication between the frontend and backend.

Severity-Aware Chest X-Ray Analysis

Jan. 2025

- Developed an AI-powered medical image analysis system using CNN and ResNet50 architectures to classify chest X-ray images based on disease severity.
- Built a Flask-based web application for real-time image upload, preprocessing, model inference, and disease severity prediction through an intuitive interface.
- Integrated Explainable AI (Grad-CAM) to visualize prediction regions, improving transparency and interpretability of AI-assisted diagnosis.
- Optimized preprocessing and inference pipelines to improve prediction speed, usability, and overall application performance.

TECHNICAL SKILLS

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Languages: Java, Python, C++, JavaScript, C, SQL

Java: Collections Framework, Multithreading, JDBC

Web & APIs: HTML5, CSS3, React.js, Flask, REST APIs

AI/ML: Generative AI, Gemini API, CNN, ResNet50, Explainable AI

Tools: Git, GitHub, GitHub Actions, MySQL, VS Code, Android Studio, AWS, Linux

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Aviatrix Certified Engineer – Multicloud Network Associate
- Python Development Internship – Cognorise Infotech
- Data Science Projects with Python – Infosys Springboard
- Machine Learning and Image Processing – thingQbator (Nasscom Foundation)
- Full Stack Development with MERN – thingQbator (Nasscom Foundation)

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Head – Nrutya Dance Club

Student Leadership — 2025 – Present

Vardhaman College of Engineering

- Lead a team of 50+ members, managing event planning, budgeting, and execution of college cultural programs.
- Collaborate with faculty and student committees while fostering leadership, communication, teamwork, and organizational excellence.
